

**Review activity:** *Question cards.*

*Here are some questions for a quiz on the energy centers. They are designed so you can cut them out and begin to build a deck of question cards. You may want to print them and mount them on 3" x 5" index cards for long-term use. As you study each energy center, add the new cards to your deck. It gets more fun!*

*Children love to be quizzed, because they love to show you that they know the answers. Fun repetition of simple games leads to mastery of knowledge. If your child is a reader, let him ask you the questions first. This is a powerful way to review the facts before he takes his turn.*

*\*Cards marked with # 6 are quiz cards for the third eye energy center. With each new energy center lesson, your child can add the new question cards to the deck.*
